

Fine Art / Giclée Prints

Giclée (or Giclée and pronounced 'gee-clay') - originally from a French word meaning 'little squirt' and refers to spraying fine drops of ink or dye onto paper or canvas. We use the latest Canon Pro professional printers for our gallery quality Giclée printing. This state of the art printer prints up to 44" wide on heavy weight 100% cotton rag archival quality acid free papers. Here at Kristal we only use the very best fine art papers by Hahnemühle and PermaJet. Our giclée prints are for professional photographers and artists who require the highest quality, archival digital inkjet prints. By using original Canon UltraChrome Inks, the giclée prints are light fast for at least 50 years daylight, 100 years in dark conditions.

The Hahnemühle German Etching 310gsm paper is a heavyweight board with a with a fine surface texture. It is one of the most popular media worldwide for artwork and photography.

Whiter than white...

Featuring many of the characteristics that have made the Portrait Smooth White 285 one of most recognised and used papers, this whiter based version makes images jump off the page. This acid-free, smooth, 285gsm base has been given our superior coating to give a more lively feeling to the subject. The beautiful base and clean, bright white surface lifts the detail of any image and shows more colour vibrancy and saturation.

Artwork Capture

We will digitally capture your artwork, which can be repurposed for any reprographic service you may need, now and in the future. Whether that be for postcards, limited editions, book project, or your website, rest assured our art capture will show your artwork faithful to the original no matter what the process. Don't let amateur photographers capture your art and compromise the quality of your art image - you will be judged by what is seen!

Additional Information for Photographic Copy Work & Digital Capture.

Art in Frames

It is best to bring in fine artwork unframed. We can, however, usually photograph it in the frame.

Special Artwork

We can handle all types of special artwork including un-mounted textiles, un-mounted papers, fragile originals, special reproduction sizes, metallic paint, gold leaf.

Please ask for a quote on special artwork.

Let us help you get the finest reproduction as a digital capture.

Files can be supplied as High Res Tiff, Jpegs and Website Ready sizes.

A bespoke quotation will be given on multiple quantities and/or various sizes.
